

ANDA 75-590

March 21, 2001

Invamed Inc.
Attention: Pankaj Dave, Ph.D.
2400 Route 130
Dayton, NJ 08810

Dear Sir:

This is in reference to your abbreviated new drug application dated February 22, 1999, submitted pursuant to Section 505(j) of the Federal Food, Drug, and Cosmetic Act (Act), for Nabumetone Tablets, 500 mg and 750 mg.

Reference is also made to your amendment dated February 14, 2001.

We have completed the review of this abbreviated application and have concluded that, based upon the information you have presented to date, the drug is safe and effective for use as recommended in the submitted labeling. Therefore, the application is **tentatively approved**. This determination is based upon information available to the Agency at this time (i.e., information in your application and the status of current good manufacturing practices (CGMPs) of the facilities used in the manufacture and testing of the drug product. The determination is subject to change on the basis of new information that may come to our attention. This letter does not address notice issues related to the 180-day exclusivity provisions under section 505(j)(5)(B)(iv) of the Act.

The listed drug product referenced in your application, Relafen Tablets of Smithkline Beecham Pharmaceuticals, is subject to a period of patent protection which expires on December 13, 2002, (U.S. Patent No. 4,420,639). Your application contains a patent certification under Section 505(j)(2)(A)(vii)(IV) of the Act stating that your manufacture, use, or sale of this drug product will not infringe upon the '639 patent. Section 505(j)(5)(B)(iii) of the Act provides that approval shall be made effective immediately unless an action is brought for infringement of the '639 patent within forty-five days from the

date the notice provided under Section 505(j)(2)(B)(i) is received. However, you have notified the Agency that litigation is currently underway in the United States District Court for the District of Massachusetts involving a challenge to the '639 patent (SmithKline Beecham Corp., and Beecham Group, p.l.c., v. Invamed, Inc., Civil Action No. 99-cv-10737). Therefore, final approval cannot be granted until:

1. a. The expiration of the 30-month period provided for in section 505(j)(5)(B)(iii) since the date of receipt of the 45-day notice required under section 505(j)(2)(B)(i), unless the court has extended or reduced the period because of the failure of either party to reasonably cooperate in expediting the action, or,
 - b. the date of court decision [505(j)(5)(B)(iii) (I), (II), or (III)], which has been interpreted by the Agency to mean the date of the final order or judgement of that court from which no appeal can be or has been taken, or,
 - c. the '639 patent has expired.
2. The Agency is assured there is no new information that would affect whether final approval should be granted.

In order to provide for final approval of this application, you must submit an amendment to notify the Agency of the circumstances have occurred that impact the effective date of final approval. Your amendment must provide:

1. A copy of a final order or judgement from which no appeal may be taken (which might not be the one from the district court), or a settlement agreement between the parties, whichever is applicable, or a licensing agreement between you and the patent holder, or any other relevant information.
2. a. Updated information related to final-printed labeling or chemistry, manufacturing and controls data, or any other change in the

conditions outlined in this abbreviated application, or

- b. a statement that no such changes have been made to the application since the date of tentative approval.

Any changes in the conditions outlined in this abbreviated application and the status of the manufacturing and testing facilities' compliance with current good manufacturing procedures are subject to Agency review before final approval of the application will be made.

In addition to, or instead of, the amendments referred to above, the Agency may, at any time prior to the final date of approval, request that you submit amendments containing the information requested above.

Failure to submit either or both amendments may result in rescission of this tentative approval determination, or delay in issuance of the final approval letter.

The drug product that is the subject of this abbreviated application may not be marketed without final Agency approval under section 505 of the Act. The introduction or delivery for introduction into interstate commerce of this drug before the effective final approval date is prohibited under section 501 of the Act. Also, until the Agency issues the final approval letter, this drug product will not be listed in the Agency's "Approved Drug Products with Therapeutic Equivalence Evaluations" list.

The amendment should be designated as a MINOR AMENDMENT in your cover letter. Before you submit the amendment, please contact Timothy Ames, Project Manager, at (301) 827-5848, for further instructions.

Sincerely yours,

Gary Buehler
