Dear Madam:

This is in reference to your abbreviated new drug application (ANDA) dated December 14, 2001, submitted pursuant to Section 505(j) of the Federal Food, Drug, and Cosmetic Act (the Act), for Fluconazole Injection, 2 mg/mL, (in 5% Dextrose Injection), packaged in 200 mg/100 mL and 400 mg/200 mL single-dose flexible plastic containers.

Reference is also made to the Tentative Approval letters issued by this office on June 18, 2003, and May 21, 2004, and to your amendments dated May 3, May 7, May 26, July 13, July 15, and July 20, 2004.

We have completed the review of this abbreviated application and have concluded that the drug is safe and effective for use as recommended in the submitted labeling. Accordingly the application is approved. The Division of Bioequivalence has determined your Fluconazole Injection, 2 mg/mL, (in 5% Dextrose Injection), to be bioequivalent and, therefore, therapeutically equivalent to the listed drug, Diflucan[®] Injection, 2 mg/mL, (in 5% Dextrose Injection) of Pfizer, Inc.).

Under Section 506A of the Act, certain changes in the conditions described in this abbreviated application require an approved supplemental application before the change may be made.

Post-marketing reporting requirements for this abbreviated application are set forth in 21 CFR 314.80-81 and 314.98. The Office of Generic Drugs should be advised of any change in the marketing status of this drug.

Promotional materials may be submitted to FDA for comment prior to publication or dissemination. Please note that these submissions are voluntary. If you desire comments on proposed launch promotional materials with respect to compliance with applicable regulatory requirements, we recommend you submit, in draft or mock-up form, two copies of both the promotional materials and package insert(s) directly to:

Food and Drug Administration
Division of Drug Marketing, Advertising, and Communications, HFD-42
