Your submission of March 22, 2006 to the above supplements constituted a complete response to our October 3, 2002 and December 7, 2005 action letters. We acknowledge, as noted in your March 22, 2006 submission, that your response to the portion of the action letter is pending.

We have completed our review of these applications, as amended. These applications are approved, effective on the date of this letter, for use as recommended in the agreed-upon labeling text.

The final printed labeling (FPL) must be identical to the enclosed labeling (text for the package insert and text for the patient package insert).
Please submit an electronic version of the FPL according to the guidance for industry titled "Providing Regulatory Submissions in Electronic Format - NDA." Alternatively, you may submit 20 paper copies of the FPL as soon as it is available but no more than 30 days after it is printed. Individually mount 15 of the copies on heavy-weight paper or similar material. For administrative purposes, designate these submissions "FPL for approved supplements NDA 20-241/S-010/S-021/S-025/S-026/S-027 and NDA 20-764/S-003/S-014/S-018/S-019/S-020." Approval of these submissions by FDA is not required before the labeling is used.

All applications for new active ingredients, new dosage forms, new indications, new routes of administration, and new dosing regimens are required to contain an assessment of the safety and effectiveness of the product in pediatric patients unless this requirement is waived or deferred. We note that you have fulfilled the pediatric study requirement for this application.

In addition, submit three copies of the introductory promotional materials that you propose to use for these products. Submit all proposed materials in draft or mock-up form, not final print. Send one copy to this division and two copies of both the promotional materials and the package insert directly to:

Food and Drug Administration  
Center for Drug Evaluation and Research
