Dear Dr. Riggs:

Please refer to your supplemental new drug applications dated September 6, 2005, received September 7, 2005, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act for Cialis® (tadalafil), 5mg, 10mg and 20mg.

This supplemental new drug application submitted as “Changes Being Effected” provides for the addition of a post-marketing visual event termed “retinal artery occlusion” to the Postmarketing surveillance/ophthalmologic under ADVERSE REACTIONS section of the Cialis Physician Insert (PI).

We have completed the review of this supplemental application and have concluded that adequate information has been presented to demonstrate that the drug is safe and effective for use as recommended in the agreed upon labeling text. Accordingly, it is approved effective on the date of this letter.

The final printed labeling (FPL) must be identical to the enclosed PI.

Please submit an electronic version of the FPL according to the guidance for industry titled Providing Regulatory Submissions in Electronic Format - NDA. Alternatively, you may submit 20 paper copies of the FPL as soon as it is available but no more than 30 days after it is printed. Individually mount 15 of the copies on heavy-weight paper or similar material. For administrative purposes, designate these submissions "FPL for approved supplement NDA 21-368/S-008." Approval of these submissions by FDA is not required before the labeling is used.

In addition, submit three copies of the introductory promotional materials that you propose to use for this product. Submit all proposed materials in draft or mock-up form, not final print. Send one copy to Division of Reproductive and Urologic Products and two copies of both the promotional materials and the package insert directly to:
If you issue a letter communicating important information about this drug product (i.e., a “Dear Health Care Professional” letter), we request that you submit a copy of the letter to this NDA and a copy to the following address:

MEDWATCH, HFD-410
FDA
5600 Fishers Lane
Rockville, MD 20857

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Eufrecina DeGuia, Regulatory Health Project Manager, at (301) 796-2130.

Sincerely,

Daniel Shames, M.D.
Director
Division of Reproductive and Urologic Drug Products
Office of Drug Evaluation III
