Columbia, MD 21045

Dear Madam:

This is in reference to your abbreviated new drug application (ANDA) dated October 13, 2005, submitted pursuant to Section 505(j) of the Federal Food, Drug, and Cosmetic Act (the Act), for Meloxicam Tablets, 7.5 mg and 15 mg.

Reference is also made to your amendments dated January 25, January 30, February 1, May 16, May 17, May 18, July 7, July 11, and July 17, 2006.

We have completed the review of this ANDA and have concluded that the drug is safe and effective for use as recommended in the submitted labeling. Accordingly the ANDA is approved. The Division of Bioequivalence has determined your Meloxicam Tablets, 7.5 mg and 15 mg, to be bioequivalent and, therefore, therapeutically equivalent to the listed drug (Mobic Tablets 7.5 mg and 15 mg, respectively, of Boehringer Ingelheim Pharmaceuticals, Inc.). Your dissolution testing should be incorporated into the stability and quality control program using the same method proposed in your application.

Under section 506A of the Act, certain changes in the conditions described in this ANDA require an approved supplemental application before the change may be made.

Postmarketing reporting requirements for this ANDA are set forth in 21 CFR 314.80-81 and 314.98. The Office of Generic Drugs should be advised of any change in the marketing status of this drug.

Promotional materials may be submitted to FDA for comment prior to publication or dissemination. Please note that these submissions are voluntary. If you desire comments on proposed launch promotional materials with respect to compliance with applicable regulatory requirements, we recommend you submit, in draft or mock-up form, two copies of both the promotional materials and package insert(s) directly to:

Food and Drug Administration
Center for Drug Evaluation and Research
Division of Drug Marketing, Advertising, and Communications
5901-B Amundson Road
