Attention: Beth Connelly  
Assistant Director, Regulatory Affairs

Dear Ms Connelly:  

Please refer to your Supplemental New Drug Application (sNDA) dated November 17, 2009, received November 17, 2009, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for MS Contin®, (morphine sulfate) Controlled-Release Tablets 15 mg, 30 mg, 60 mg, 100 mg, and 200 mg.  

This Changes Being Effected supplemental new drug application provides for revisions to the ADVERSE REACTIONS section of your package insert.  

We have completed our review of this supplemental application. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.  

CONTENT OF LABELING  

As soon as possible, but no later than 14 days from the date of this letter, submit, using the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format, as described at http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm, that is identical to the enclosed labeling (text for the package insert, text for the patient package insert, Medication Guide) and include the labeling changes proposed in any pending “Changes Being Effected” (CBE) supplements. Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf.  

The SPL will be accessible from publicly available labeling repositories.  

Also within 14 days, amend all pending supplemental applications for this NDA, including pending “Changes Being Effected” (CBE) supplements, for which FDA has not yet issued an
action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format that includes the changes approved in this supplemental application.
