Dear Dr. Haber:

Please refer to your Supplemental New Drug Application (sNDA) dated March 19, 2010, received March 19, 2010, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Foradil Aerolizer (formoterol fumarate inhalation powder) and Foradil Certihaler (formoterol fumarate inhalation powder).

In addition, we acknowledge receipt of your submissions dated May 18, and 27, 2010.

SAFETY LABELING CHANGES

Reference is also made to our letter dated February 18, 2010, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for all long-acting beta-agonist (LABA) products. This information pertains to the risk of serious asthma outcomes (asthma related death, intubations, and hospitalizations) with the use of the class of the LABA, of which Foradil Aerolizer (formoterol fumarate) and Foradil Certihaler (formoterol fumarate inhalation powder) are members.

These supplemental NDAs provide for revisions to the Medication Guide and package insert for Foradil Aerolizer (formoterol fumarate) and Foradil Certihaler (formoterol fumarate) consistent with the agreed upon changes to the language included in our February 18, 2010, Safety Change Notification letters and telephone facsimiles dated May 6, 13, and 14, 2010.

We have completed our review of these supplemental applications, as amended. These applications are approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

As soon as possible, but no later than 14 days from the date of this letter, submit, using the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format, as described at
The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for these NDAs, including pending “Changes Being Effected” (CBE) supplements, for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format that includes the changes approved in this supplemental application.

CARTON AND IMMEDIATE CONTAINER LABELS

We acknowledge your March 19, 2010, submission containing draft carton and container labels. We did not review the carton and container labels as part of these supplements. Provide a separate labeling supplement for the changes to the carton and container labels for Foradil Aerolizer and Foradil Certihaler.
