Dear Dr. Tan:

Please refer to your Supplemental New Drug Application (sNDA) dated September 21, 2010, received September 22, 2010, submitted under section 505(b) of the Federal Food Drug, and Cosmetic Act (FDCA) for Invega (paliperidone) extended-release tablets.

We also refer to our letter dated August 23, 2010, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for antipsychotics, including Invega (paliperidone). This information pertains to the risk of EPS and withdrawal syndrome in neonates, with the use of the class of antipsychotics by the mothers, based on new safety information about this risk identified since the product was approved.

This supplemental new drug application provides for revisions to the labeling for Invega (paliperidone) consistent with our August 23, 2010, letter.

We have completed our review of this supplemental application. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

**CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit, using the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format, as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>, that is identical to the enclosed labeling (text for the package insert, text for the patient package insert, Medication Guide) and include the labeling changes proposed in any pending "Changes Being Effected" (CBE) supplements. Information on submitting SPL files using eLIST may be found in the guidance for industry titled "SPL Standard for Content of Labeling Technical Qs and As" at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including pending “Changes Being Effected” (CBE) supplements, for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format that includes the changes approved in this supplemental application.
