Genentech, Incorporated
Attention: Nadine D. Cohen, Ph.D.
Senior Vice President, Regulatory Affairs
Biogen Idec Inc.
14 Cambridge Center
Cambridge, MA 02142

Dear Dr. Cohen:

Please refer to your supplement to your biologics license application (BLA), dated May 15, 2009, received May 18, 2009, submitted under section 351 of the Public Health Service Act for Rituxan (rituximab).

We acknowledge receipt of your amendments dated June 16, July 23, 30 and 31, September 9, 16, 18 and 24, October 21, November 4 and 12, 2009, January 8, and February 2, 2010.

Your request to supplement your biologics license application for Rituxan (rituximab) to include a new indication for the treatment of patients previously treated for CD20-positive chronic lymphocytic leukemia (CLL) in combination with fludarabine and cyclophosphamide (FC) has been approved.

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because Rituxan for the treatment of CLL has an orphan drug designation, you are exempt from this requirement.

CONTENT OF LABELING

Within 14 days of the date of this letter, submit content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>, that is identical in content to the enclosed labeling text. The content of labeling should be submitted by updating your applications by referencing the SPL file submitted to the drug establishment registration and drug listing system. To do this, place a link in your application submissions that

directs FDA to your SPL file. For administrative purposes, please designate this submission **“Product Correspondence – Final SPL for approved BLA STN 103705/5311.”** In addition, within 14 days of the date of this letter, amend any pending supplement(s) for this BLA with content of labeling in SPL format to include the changes approved in this supplement. For additional information on submitting labeling to drug establishment registration and drug listing and to applications, see the FDA guidances at <http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/ucm072339.pdf> and <http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

Marketing the product with the labeling that is not identical to the approved labeling text may render the product misbranded and an unapproved new drug.

PROMOTIONAL MATERIALS

You may request advisory comments on proposed introductory advertising and promotional labeling. To do so, submit, in triplicate, a cover letter requesting advisory comments, the proposed materials in draft or mock-up form with annotated references, and the package insert(s) to:

Food and Drug Administration
Center for Drug Evaluation and Research
Division of Drug Marketing, Advertising, and Communications
5901-B Ammendale Road
Beltsville, MD 20705-1266

As required under 21 CFR 601.12(f)(4), you must submit final promotional materials, and the package insert(s), at the time of initial dissemination or publication, accompanied by a Form FDA 2253. For instruction on completing the Form FDA 2253, see page 2 of the Form. For more information about submission of promotional materials to the Division of Drug Marketing, Advertising, and Communications (DDMAC), see <http://www.fda.gov/AboutFDA/CentersOffices/CDER/ucm090142.htm>.

If you have any questions, contact Vaishali Jarral, Regulatory Project Manager, at (301) 796-4248.

Sincerely,

/Patricia Keegan/
