Dear Dr. Nemeth:

Please refer to your Supplemental New Drug Application (sNDA) dated and received January 28, 2011, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Ditropan® (Oxybutynin chloride) Tablets.

We acknowledge receipt of your amendment dated July 26, 2011.

This Prior Approval supplemental new drug application provides a new **WARNING** regarding the occurrence of angioedema, a new paragraph in the **Information for Patients** subsection of the **PRECAUTIONS** section regarding angioedema, and the addition of angioedema, hypersensitivity, and rare anaphylactic reactions to the **Post- Marketing Surveillance** subsection of the **ADVERSE REACTIONS** section of the Package Insert. These revisions to the labeling for Ditropan are consistent with our October 18, 2010, Prior Approval Supplemental Request letter.

We have completed our review of this supplemental application. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert), with the addition of any labeling changes in pending "Changes Being Effectuated" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled "SPL Standard for Content of Labeling Technical Qs and As" at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
