Dear Dr. Do,

Please refer to your Supplemental New Drug Application (sNDA) dated April 15, 2011, received April 18, 2011, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Zonegran (zonisamide) Capsules.

We acknowledge receipt of your risk evaluation and mitigation strategy (REMS) assessment dated October 22, 2010.

This sNDA proposes to eliminate the requirement for the approved REMS.

We have completed our review of this supplemental application. It is approved, effective on the date of this letter.

**RISK EVALUATION AND MITIGATION STRATEGY REQUIREMENTS**

The REMS for Zonegran (zonisamide) was originally approved on April 23, 2009. The REMS consists of a Medication Guide and a timetable for submission of assessments of the REMS.

You propose that FDA no longer require a REMS for Zonegran (zonisamide).

We have determined that maintaining the Medication Guide as part of the approved labeling is adequate to address the serious and significant public health concern and meets the standard in 21 CFR 208.1. Therefore, it is no longer necessary to include the Medication Guide as an element of the approved REMS to ensure that the benefits of Zonegran (zonisamide) outweigh its risks, and a REMS is no longer required.

We remind you that the Medication Guide will continue to be part of the approved labeling in accordance with 21 CFR 208.
**REPORTING REQUIREMENTS**

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Stephanie Keefe, PharmD, Regulatory Project Manager, at (301) 796-4098.

Sincerely,

{See appended electronic signature page}
