Attention: John Cook
Regulatory Affairs

Dear Mr. Cook:

Please refer to your Supplemental New Drug Application (sNDA) dated June 8, 2011, received June 8, 2011, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Arava (leflunomide) Tablets.

We also acknowledge your submission dated July 8, 2011.

We also refer to our letter dated May 12, 2011, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for Arava (leflunomide) Tablets. This information pertains to the risk of peripheral neuropathy with the use of Arava (leflunomide) Tablets.

This supplemental new drug application provides for revisions to the labeling for Arava (leflunomide) consistent with our May 12, 2011, SAFETY LABELING CHANGE NOTIFICATION LETTER. This supplemental new drug application also proposes to add text to the PRECAUTIONS section of the Package Insert regarding the increased risk of developing interstitial lung disease in patient with prior history of interstitial lung disease.

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(1)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert), with the

addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
