**SUPPLEMENT APPROVAL**

Novartis Pharmaceuticals Corporation  
Attention: Michelle Hack  
Associate Director, Regulatory Affairs  
One Health Plaza  
East Hanover, NJ 07936-1080

Dear Ms. Hack:

Please refer to your Supplemental New Drug Application (sNDA) dated September 23, 2011, received September 23, 2011, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Sandostatin (octreotide acetate) Injection.

This "Prior Approval" supplemental new drug application provides for the addition of a Postmarketing Experience subsection to the Adverse Reactions section of the package insert, in response to our supplement request letter which issued on August 23, 2011. We also refer to the communication sent via email on March 13, 2012, by Jennifer Johnson of this Division, adding the term "Hematologic: thrombocytopenia" to this subsection, and your response in an email communication dated March 19, 2012 agreeing to this addition.

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

**CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert), with the addition of any labeling changes in pending "Changes Being Effected" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled "SPL Standard for Content of Labeling Technical Qs and As" at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
