

NDA 19826/S-023

SUPPLEMENT APPROVAL

B.Braun Medical, Inc.
901 Marcon Boulevard
Allentown, PA 18109

Attention: Rebecca A. Stolarick
Director, Regulatory Affairs

Dear Ms. Stolarick:

Please refer to your Supplemental New Drug Application (sNDA) dated August 25, 2011, received August 25, 2011, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Theophylline in 5% Dextrose in the Excel® Plastic Container.

This “Changes Being Effected” supplemental new drug application provides for the addition of the statement “There have been reports of non-convulsive status epilepticus in patients receiving theophylline, and this possibility should be considered in patients with abnormal central nervous system function and a history of theophylline administration” to the ADVERSE REACTIONS Section of the package insert. In addition throughout the package insert formatting updates were made to comply with the Institute for Safe Medical Practice (ISMP) recommendations.

We have completed our review of this supplemental application. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(1)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert,), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Sadaf Nabavian, Regulatory Project Manager, at (301) 796-277.

Sincerely,

{See appended electronic signature page}
