Dear Dr. McConnell:

Please refer to your Supplemental New Drug Applications (sNDAs) dated September 1, 2011, received September 1, 2011, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Lamictal (lamotrigine) tablets, Lamictal (lamotrigine) chewable dispersible tablets, Lamictal ODT (lamotrigine) orally disintegrating tablets, and Lamictal XR (lamotrigine) extended-release tablets.

We acknowledge receipt of your amendments dated December 22, 2011, January 10, 2012, and April 20, 2012

These "Changes Being Effectuated" supplemental new drug applications provide for Agency-requested updates to the Use in Specific Populations/Nursing Mothers (section 8.3) and Patient Counseling Information/Pregnancy and Nursing (section 17.6) section of the labeling, as well as corresponding changes to the Medication Guide, based on a review of the literature and spontaneous reports.

We have completed our review of these supplemental applications and they are approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(1)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert and Medication Guide), with the addition of any labeling changes in pending "Changes Being Effectuated" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for these NDAs, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
