Boehringer-Ingelheim Pharmaceuticals, Inc.
Attention: Wendy Bischof
Associate Director, Drug Regulatory Affairs
900 Ridgefield, CT 06877-0368

Dear Ms. Bischof:

Please refer to your Supplemental New Drug Applications (sNDAs) dated and received December 29, 2011, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for VIRAMUNE[®] (nevirapine), 200 mg tablets and 50 mg per 5 mL oral suspension.

We acknowledge receipt of your amendments dated March 9, 2012, June 11, 2012, July 30, 2012, September 10, 2012, October 12, 2012, November 5, 2012, and November 8, 2012.

The September 10, 2012, submission constituted a complete response to our June 22, 2012, action letter.

These "Prior Approval" supplemental new drug applications propose to:

- Update the Microbiology-Resistance and Cross-Resistance sections of the Package Insert.
- Harmonize the Package Insert and the Medication Guide with applicable labeling changes consistent with VIRAMUNE XR[®] (nevirapine) extended-release tablet (NDA 201152/S-004).

We have completed our review of these supplemental applications, as amended. They are approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(1)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert and Medication

Guide), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for these NDAs, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in these supplemental applications, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
