SUPPLEMENT APPROVAL

Sunovion Pharmaceuticals, Inc.
84 Waterford Drive
Marlborough, MA 01752-7010

Attention: Sonya Roeloffzen
Associate Director, Regulatory Affairs

Dear Ms. Roeloffzen:

Please refer to your Supplemental New Drug Application (sNDA) dated February 17, 2012, received February 17, 2012, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Alvesco (ciclesonide) MDI.

We acknowledge receipt of your amendments dated August 3, and 9, and November 21, 2012.

We also refer to your May 11, 2011, submission which requested a Partial Waiver for your PREA requirement outlined in the January 10, 2008, approval letter.

This "Prior Approval" supplemental new drug application provides for changes in the product labeling to include the lack of efficacy in children 6 months to 4 years of age.

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert) with the addition of any labeling changes in pending "Changes Being Effectuated" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled "SPL Standard for Content of Labeling Technical Qs and As" at

<http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories. Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

We waived your pediatric study requirement for ages zero to less than 6 months of age and deferred pediatric studies for ages 6 months to 4 years of age in the January 10, 2008, approval letter.

We are now waiving the pediatric study requirement for ages 6 months to 4 years because there is evidence strongly suggesting that the drug product would be ineffective in this pediatric group.
