

Food and Drug Administration Silver Spring, MD 20993

ANDA 091649

Teva Pharmaceuticals USA Attention: John Derstine Director, Regulatory Affairs 425 Privet Road Horsham, PA 19044

Dear Sir:

This is in reference to your abbreviated new drug application (ANDA) dated June 26, 2009, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (the Act), for Capecitabine Tablets USP, 150 mg and 500 mg.

Reference is also made to your amendments dated July 16, 2010; March 16, March 18, March 31, and August 18, 2011; and January 17, May 29, and August 29, 2013. We also acknowledge receipt of your correspondences dated October 26, 2009 (3 submissions) and July 10, 2013, addressing the patent issue noted below.

We have completed the review of this ANDA and have concluded that adequate information has been presented to demonstrate that the drug is safe and effective for use as recommended in the submitted labeling. Accordingly the ANDA is approved, effective on the date of this letter. The Division of Bioequivalence has determined your Capecitabine Tablets USP, 150 mg and 500 mg, to be bioequivalent and, therefore, therapeutically equivalent to the reference listed drug (RLD), Xeloda Tablets, 150 mg and 500 mg, respectively, of Hoffman-La Roche Inc. (Roche). Your dissolution testing should be incorporated into the stability and quality control program using the same method proposed in your ANDA.

The RLD upon which you have based your ANDA, Roche's Xeloda Tablets, is subject to a period of patent protection. As noted in the agency's publication titled <u>Approved Drug Products with</u> <u>Therapeutic Equivalence Evaluations</u> (the "Orange Book"), U.S. Patent No. 5,472,949 (the '949 patent), is scheduled to expire on June 14, 2014 (with pediatric exclusivity added). Your ANDA contains a paragraph IV certification under section 505(j)(2)(A)(vii)(IV) of the Act stating that the '949 patent is invalid, unenforceable, or will not be infringed by your manufacture, use, or sale of Capecitabine Tablets USP, 150 mg and 500 mg, under this ANDA. You have notified the agency that Teva Pharmaceuticals USA (Teva) complied with the requirements of section 505(j)(2)(B) of the Act, and that litigation was initiated against Teva for infringement of the '949 patent within the statutory 45-day period in the United States District Court for the District of New Jersey [Hoffman-La Roche Inc. v. Teva Pharmaceuticals USA, Inc., et al, Civil Action No. 09-5283; see also Hoffmann-La Roche Inc. v. Teva Pharmaceuticals USA Inc. and Teva Pharmaceutical Industries Ltd., Civil Action No. 11-cv-You have notified the agency that the litigation has 036351. been dismissed.

Under section 506A of the Act, certain changes in the conditions described in this ANDA require an approved supplemental application before the change may be made.

Please note that if FDA requires a Risk Evaluation & Mitigation Strategy (REMS) for a listed drug, an ANDA citing that listed drug also will be required to have a REMS. See section 505-1(i) of the Act.

Postmarketing reporting requirements for this ANDA are set forth in 21 CFR 314.80-81 and 314.98. The Office of Generic Drugs should be advised of any change in the marketing status of this drug.

Promotional materials may be submitted to FDA for comment prior to publication or dissemination. Please note that these submissions are voluntary. If you desire comments on proposed launch promotional materials with respect to compliance with applicable regulatory requirements, we recommend you submit, in draft or mock-up form, two copies of both the promotional materials and package insert directly to:

Food and Drug Administration Center for Drug Evaluation and Research Office of Prescription Drug Promotion 5901-B Ammendale Road Beltsville, MD 20705

We call your attention to 21 CFR 314.81(b)(3) which requires that all promotional materials be submitted to the Office of Prescription Drug Promotion with a completed Form FDA 2253 at the time of their initial use. The Generic Drug User Fee Amendments of 2012 (GDUFA) (Public Law 112-144, Title III) established certain provisions with respect to self-identification of facilities and payment of annual facility fees. Your ANDA identifies at least one facility that is subject to the self-identification requirement and payment of an annual facility fee. Self-identification must occur by June 1 of each year for the next fiscal year. Facility fees must be paid each year by the date specified in the Federal Register notice announcing facility fee amounts. All finished dosage forms (FDFs) or active pharmaceutical ingredients (APIs) manufactured in a facility that has not met its obligations to self-identify or to pay fees when they are due will be deemed misbranded. This means that it will be a violation of federal law to ship these products in interstate commerce or to import them into the United States. Such violations can result in prosecution of those responsible, injunctions, or seizures of misbranded products. Products misbranded because of failure to self-identify or pay facility fees are subject to being denied entry into the United States.

As soon as possible, but no later than 14 days from the date of this letter, submit, using the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 314.50(1)] in structured product labeling (SPL) format, as described at

http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLab eling/default.htm, that is identical in content to the approved labeling (including the package insert, and any patient package insert and/or Medication Guide that may be required). Information on submitting SPL files using eLIST may be found in the guidance for industry titled "SPL Standard for Content of Labeling Technical Qs and As" at

http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInf ormation/Guidances/UCM072392.pdf. The SPL will be accessible via publicly available labeling repositories.

Sincerely yours,

{See appended electronic signature page}

Kathleen Uhl, M.D. Acting Director Office of Generic Drugs Center for Drug Evaluation and Research
