We acknowledge receipt of your amendments dated November 15, 2012, January 11, 2013, February 11, 2013 and February 14, 2013.

This “Prior Approval” supplemental new drug application proposes to update the Package Insert and Medication Guide with the results of clinical study protocol PN08335, entitled, “A Drug Interaction Study to Assess the Effect of Boceprevir on the Pharmacokinetics of Ethinyl Estradiol and Norethindrone in Healthy Female Subjects.”

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert and Medication Guide), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As at

The SPL will be accessible from publicly available labeling repositories.

To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
