Attention: Clorey Toombs
Senior Manager, Regulatory Affairs

Dear Ms. Toombs:

Please refer to your Supplemental New Drug Application (NDA) submitted July 1, 2014, received July 2, 2014, under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Subutex (buprenorphine) sublingual tablets.

This “Prior Approval” supplemental new drug application proposes revisions to the DOSAGE AND ADMINISTRATION, WARNINGS AND PRECAUTIONS, USE IN SPECIFIC POPULATIONS, and CLINICAL PHARMACOLOGY sections of the packet insert to reflect updated information regarding use of Subutex in patients with hepatic impairment, and in pregnant or nursing women.

APPROVAL & LABELING

We have completed our review of this supplemental application. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling text for the package insert and medication guide, with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that includes labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

FULFILLMENT OF POSTMARKETING REQUIREMENT

The October 8, 2002, approval letter for Subutex (buprenorphine HCl) sublingual tablets contained the following postmarketing requirement:

- 1237-2 A study to determine the effect of hepatic impairment on the pharmacokinetics of Suboxone, and to establish whether there is a differential effect on buprenorphine as compared to naloxone.

Your January 28, 2014, submission to Suboxone (buprenorphine and naloxone) sublingual film (NDA 022410) contained a final report for this study. In our April 28, 2014, action letter for NDA 022410/S018 we concluded that the above requirement was fulfilled.

We remind you that there is a postmarketing requirement listed in the October 8, 2002, approval letter that has not been fulfilled.
