Dear Mr. Rampersaud:

Please refer to your Supplemental New Drug Applications (sNDA) dated and received April 13, 2011 (S-037), and September 11, 2012 (S-042), submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Cymbalta (duloxetine) 20 mg, 30 mg, and 60 mg delayed-release capsules.

We acknowledge receipt of your amendments dated March 21, 2014, July 31, 2014, August 20, 2014, and October 30, 2014.

The March 21, 2014, submission constituted a complete response to our October 23, 2013, action letter.

These "Changes Being Effected" supplemental new drug applications provide for the following revisions to product labeling:

S-037

- Revisions to the Highlights, Section 5 (Warnings and Precautions), Section 6 (Adverse Reactions), Section 8.5 (Geriatric Use), and Medication Guide.

S-042

- Revisions to the Highlights, Section 5 (Warnings and Precautions), Section 6 (Adverse Reactions), and Section 16 (How Supplied/Storage and Handling).

APPROVAL & LABELING

We have completed our review of these supplemental applications, as amended. They are approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert, and Medication Guide), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
