Dear Dr. Byun:

Please refer to your Supplemental Biologics License Application (sBLA), dated November 26, 2014, received November 26, 2014, submitted under section 351(a) of the Public Health Service Act for Xgeva[®] (denosumab, AMG 162; Human Monoclonal Antibody to RANK Ligand).

We acknowledge receipt of your amendments dated April 16, 21, and 24, 2014.

This “Prior Approval” supplemental biologics application provides for updates to the Warnings and Precautions and Use in Specific Populations sections of the prescribing information to include information regarding risk of developing hypocalcemia for patients with severe renal impairment. In addition, Postmarketing Experience has been updated to include musculoskeletal pain.

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>, that is identical to the enclosed labeling (text for the package insert) and include the labeling changes proposed in any pending “Changes Being Effected” (CBE) supplements. Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at

<http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible via publicly available labeling repositories.
