Dear Dr. Choe:

Please refer to your Supplemental New Drug Application (sNDA) dated and received November 25, 2014, submitted pursuant to section 505(b)(2) of the Federal Food, Drug, and Cosmetic Act (FDCA) for esomeprazole strontium delayed-release capsules.

We acknowledge receipt of your amendment dated December 15, 2014.

We also refer to our letter dated October 30, 2014, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for esomeprazole strontium. This information pertains to the risk of Vitamin B12 deficiency with long-term daily treatment of proton pump inhibitors (PPIs) and the risk of concomitant dosing of mycophenolate mofetil with PPIs resulting in reduced systemic exposure of mycophenolate mofetil as reported in current literature.

This supplemental new drug application provides for revisions to the labeling for esomeprazole strontium, consistent with our October 30, 2014 Safety Labeling Change Notification letter.

We have completed our review of this supplemental application. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text. Additionally, there are minor editorial agreed upon labeling changes.
