This “Changes Being Effected” supplemental new drug application provides for the addition of psychosis to the ADVERSE REACTIONS section. Additionally, this supplement provides for revisions to the Microbiology subsection and additional updates to the package insert and carton and container labeling to align with approved metronidazole product labelings.

APPROVAL & LABELING

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. The SPL will be accessible from publicly available labeling repositories.
