

NDA 020563/S-157

**SUPPLEMENT APPROVAL**

Eli Lilly and Company  
Attention: Sumitra Ghate, BA, BS  
Advisor, Global Regulatory Affairs – U.S.  
Lilly Corporate Center, Drop Code 2543

Dear Ms. Ghate:

Please refer to your Supplemental New Drug Application (sNDA) dated and received August 15, 2014, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Humalog (insulin lispro [rDNA origin] injection), 100 Units/mL.

We also refer to our supplement approval letter dated February 25, 2015, which contained the following error: the container labels were not attached to the letter.

This replacement approval letter incorporates the correction of the error. The effective approval date will remain February 25, 2015, the date of the original approval letter.

We acknowledge receipt of your amendments dated November 24, 2014, and January 16 and February 10, 2015.

We also refer to our letter dated July 17, 2014, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for products indicated for diabetes mellitus that have multi-dose pen presentations. This information pertains to the risk of transmission of bloodborne pathogens resulting from pen devices and pen cartridges that are intended for single patient use only, being shared among numerous patients.

This supplemental new drug application provides for revisions to the labeling for Humalog consistent with our July 17, 2014, letter.

In our July 17, 2014, letter, we also required you to submit a plan for how you would modify the pen device to include a statement warning against the sharing of pens, on the body of the pen. In your submission dated August 15, 2014, you provided a rationale for why you believe that adding the warning statement to the body of the pen is not necessary and/or feasible. We have reviewed this rationale and found it acceptable that the warning not be placed on the body of the pen at this time.

Further, in our July 17, 2014 letter, we required you to modify the labeling for HumaPen Luxura HD and HumaPen Memoir to include the warning against the sharing of pens. However, we acknowledge that HumaPen Luxura HD and HumaPen Memoir are cleared through a 510(k) regulatory pathway and are not NDA approved products, and therefore you are no longer required to modify the labeling for these pens.

### **APPROVAL & LABELING**

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Also within 14 days, amend all pending supplemental applications that includes labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
