Silver Spring MD 20993

NDA 022059/S-020

SUPPLEMENT APPROVAL

Novartis Pharmaceuticals Corporation
Attention: Shanthi Ganeshan, PhD
VP & US Head, Drug Regulatory Affairs
One Health Plaza
East Hanover, NJ 07936

Dear Dr. Ganeshan:

Please refer to your Supplemental New Drug Application (sNDA) dated October 3, 2014, received October 3, 2014, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Tykerb® (lapatinib) Tablets, 250 mg.

We acknowledge receipt of your amendments dated December 17, 2014, January 6 and March 17, 2015.

This “Prior Approval” supplemental new drug application proposes revisions to the Prescribing Information (PI) to include information on the carcinogenetic potential of lapatinib. These changes are based on data obtained from the GW572016F: Oral Gavage Carcinogenicity Study in CD-1® Mice and the GW572016F: Oral gavage carcinogenicity study in Wistar Han rats study.

APPROVAL & LABELING

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm. Content of labeling must be identical to the enclosed labeling (text for the package insert, text for the patient package insert), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that includes labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Charlene Wheeler, Regulatory Project Manager, at (301) 796-1141.

Sincerely,

{See appended electronic signature page}

Geoffrey Kim, M.D.
