

ANDA 202802

TENTATIVE APPROVAL

Actavis Elizabeth LLC
200 Elmora Ave.
Elizabeth, NJ 07207
Attention: Janak Jadeja, R.Ph.
Director, Regulatory Affairs

Dear Sir:

This is in reference to your abbreviated new drug application (ANDA) dated February 23, 2011, submitted pursuant to section 505(j) of the Federal Food, Drug, and Cosmetic Act (FD&C Act), for Lisdexamfetamine Dimesylate Capsules, 20 mg, 30 mg, 40 mg, 50 mg, 60 mg, and 70 mg.

Reference is made to the [REDACTED] (b) (4)

We have completed the review of this ANDA, and based upon the information you have presented to date we have concluded that the drug is safe and effective for use as recommended in the submitted labeling. However, we are unable to grant final approval to your ANDA at this time because of the patent issue noted below. Therefore, the ANDA is **tentatively approved**. This determination is based upon information available to the agency at this time (i.e., information in your ANDA and the status of current good manufacturing practice (cGMP) at the facilities used in the manufacturing and testing of the drug product) and is therefore subject to change on the basis of new information that may come to our attention.

The reference listed drug (RLD) upon which you have based your ANDA, Vyvanse Capsules, 20 mg, 30 mg, 40 mg, 50 mg, 60 mg, and 70 mg, of Shire Development LLC, is subject to periods of patent protection. The following patents and expiration dates are currently listed in the agency's publication titled Approved Drug Products with Therapeutic Equivalence Evaluations (the "Orange Book"):

<u>U.S. Patent Number</u>	<u>Expiration Date</u>
7,105,486 (the '486 patent)	February 24, 2023
7,223,735 (the '735 patent)	February 24, 2023
7,655,630 (the '630 patent)	February 24, 2023
7,659,253 (the '253 patent)	February 24, 2023
7,659,254 (the '254 patent)	February 24, 2023
7,662,787 (the '787 patent)	February 24, 2023
7,662,788 (the '788 patent)	February 24, 2023

7,671,030 (the '030 patent)	February 24, 2023
7,671,031 (the '031 patent)	February 24, 2023
7,674,774 (the '774 patent)	February 24, 2023
7,678,770 (the '770 patent)	February 24, 2023
7,678,771 (the '771 patent)	February 24, 2023
7,687,466 (the '466 patent)	February 24, 2023
7,687,467 (the '467 patent)	February 24, 2023
7,700,561 (the '561 patent)	February 24, 2023
7,713,936 (the '936 patent)	February 24, 2023
7,718,619 (the '619 patent)	February 24, 2023
7,723,305 (the '305 patent)	February 24, 2023

We note that the '788 and '936 patents were “late-listed” with respect to your ANDA and no certification to either of these patents is required. See 21 CFR 314.94(a)(12)(vi).

Your ANDA contains paragraph IV certifications under section 505(j)(2)(A)(vii)(IV) of the FD&C Act stating that the '486, '735, '630, '253, '254, '787, '030, '031, '774, '770, '771, '466, '467, '561, '619, and '305 patents are invalid, unenforceable, or will not be infringed by your manufacture, use, or sale of Lisdexamfetamine Dimesylate Capsules, 20 mg, 30 mg, 40 mg, 50 mg, 60 mg, and 70 mg, under this ANDA. You have notified the agency that Actavis Elizabeth LLC (Actavis) complied with the requirements of section 505(j)(2)(B) of the FD&C Act, and litigation for infringement of '486, '735, '630, '253, '254, '787, '030, '031, '774, '770, '771, '466, '467, '561, '619, and '305 patents was brought against Actavis within the statutory 45-day period in the United States District Court for the District of New Jersey [Shire LLC et al. v. Amneal Pharmaceuticals LLC et al., Civil Action No. 2:11-cv-03781-SRC-CLW]. You notified the agency that on July 21, 2014, the court issued a decision that the asserted claims of the '630, '253, '787, and claim 4 of the '486 patents were infringed and not invalid, and that final approval cannot be granted until the '630, '253, '787, and '486 patents have expired, currently February 24, 2023.

Please note that if FDA requires a Risk Evaluation & Mitigation Strategy (REMS) for a listed drug, an ANDA citing that listed drug also will be required to have a REMS. See section 505-1(i) of the FD&C Act.

To reactivate your ANDA prior to final approval, please submit a “**MINOR AMENDMENT – FINAL APPROVAL REQUESTED**” 90 days prior to the date you believe that your ANDA will be eligible for final approval. This amendment should provide the legal/regulatory basis for your request for final approval and should include a copy of a court decision, or a settlement or licensing agreement, as appropriate. It should also identify changes, if any, in the conditions under which the ANDA was tentatively approved, i.e., updated information such as final-printed labeling, chemistry, manufacturing, and controls data as appropriate. This amendment should be submitted even if none of these changes were made, and it should be designated clearly in your cover letter as a **MINOR AMENDMENT – FINAL APPROVAL REQUESTED**.

In addition to the amendment requested above, the agency may request at any time prior to the date of final approval that you submit an additional amendment containing the requested

information. Failure to submit either or, if requested, both amendments may result in rescission of the tentative approval status of your ANDA, or may result in a delay in the issuance of the final approval letter.

Any significant changes in the conditions outlined in this ANDA as well as changes in the status of the manufacturing and testing facilities' cGMPs are subject to agency review before final approval of the ANDA will be made. Such changes should be categorized as representing either "major" or "minor" changes, and they will be reviewed according to OGD policy in effect at the time of receipt. The submission of multiple amendments prior to final approval may also result in a delay in the issuance of the final approval letter.

This drug product may not be marketed without final agency approval under section 505 of the FD&C Act. The introduction or delivery for introduction into interstate commerce of this drug product before the final approval date is prohibited under section 301 of the FD&C Act. Also, until the agency issues the final approval letter, this drug product will not be deemed to be approved for marketing under section 505 of the FD&C Act, and will not be listed in the Orange Book. Should you believe that there are grounds for issuing the final approval letter prior to February 24, 2023, you should amend your ANDA accordingly.

The Generic Drug User Fee Amendments of 2012 (GDUFA) (Public Law 112-144, Title III) established certain provisions with respect to self-identification of facilities and payment of annual facility fees. Your ANDA identifies at least one facility that is subject to the self-identification requirement and payment of an annual facility fee. Self-identification must occur by June 1 of each year for the next fiscal year. Facility fees must be paid each year by the date specified in the Federal Register notice announcing facility fee amounts. All finished dosage forms (FDFs) or active pharmaceutical ingredients (APIs) manufactured in a facility that has not met its obligations to self-identify or to pay fees when they are due will be deemed misbranded. This means that it will be a violation of federal law to ship these products in interstate commerce or to import them into the United States. Such violations can result in prosecution of those responsible, injunctions, or seizures of misbranded products. Products misbranded because of failure to self-identify or pay facility fees are subject to being denied entry into the United States.

In addition, we note that GDUFA requires that certain non-manufacturing sites and organizations listed in generic drug submissions comply with the self-identification requirement. The failure of any facility, site, or organization to comply with its obligation to self-identify and/or to pay fees when due may raise significant concerns about that site or organization and is a factor that may increase the likelihood of a site inspection prior to approval. FDA does not expect to give priority to completion of inspections that are required simply because facilities, sites, or organizations fail to comply with the law requiring self-identification or fee payment.

Additionally, we note that the failure of any facility referenced in the application to self-identify and pay applicable fees means that FDA will not consider the GDUFA application review goal dates to apply to that application.

For further information on the status of this ANDA, or prior to submitting additional amendments, please contact Megan Tychinski, Regulatory Project Manager, at 240-402-2717.

Sincerely yours,

Carol A. Holquist -S
