SUPPLEMENT APPROVAL

Pfizer Inc.
Attention: Anna Maria Gambino
Senior Manager, Worldwide Safety and Regulatory
235 East 42nd Street
New York, NY 10017

Dear Ms. Gambino:

Please refer to your Supplemental New Drug Applications (sNDA) dated September 9, 2016, received September 9, 2016, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Vistaril (hydroxyzine pamoate) 25mg and 50mg Capsules (NDA 011459) and Vistaril (hydroxyzine pamoate) 25mg/5mL Oral Suspension (NDA 011795).

We also refer to our letter dated August 11, 2016, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for Vistaril (hydroxyzine pamoate) 25mg and 50mg capsules and Vistaril (hydroxyzine pamoate) 25mg/5mL oral suspension. This information pertains to the risk of acute generalized exanthematous pustulosis (AGEP).

These Prior Approval supplemental new drug applications provide for revisions to the labeling for Vistaril (hydroxyzine pamoate) 25mg and 50mg Capsules and Vistaril (hydroxyzine pamoate) 25mg/5mL Oral Suspension, consistent with our August 11, 2016. Also, these supplemental new drug applications proposed the addition of AGEP to the Adverse Reactions section of the product labeling.

APPROVAL & LABELING

We have completed our review of these supplemental applications. They are approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

We note that your September 9, 2016, submission includes final printed labeling (FPL) for your package insert. We have not reviewed this FPL. You are responsible for assuring that the wording in this printed labeling is identical to that of the approved content of labeling in the structured product labeling (SPL) format.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
