Dear Mr. Hyatt:

Please refer to your Supplemental New Drug Applications (sNDA) dated January 20, 2016, received February 12, 2016, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Epivir (lamivudine) tablets, 150 mg, 300 mg, and Epivir (lamivudine) oral solution, 10 mg per mL.

These Prior Approval supplemental new drug applications propose to update the labeling with the following information:

- To update the DOSAGE AND ADMINISTRATION, Recommended Dosage for Pediatric Patients section to note that EPIVIR scored tablet is the preferred formulation for HIV-1-infected pediatric patients who weigh at least 14 kg if a solid dosage form is appropriate.
- To update the WARNINGS AND PRECAUTIONS, USE IN SPECIFIC POPULATIONS, Pediatric Use, CLINICAL PHARMACOLOGY, Microbiology, and the CLINICAL STUDIES, Pediatric Studies sections to include virologic suppression and resistance information for the oral solution formulation based upon the data from the ARROW clinical trial conducted in the pediatric population.
- To revise the formatting in sections DOSAGE FORMS AND STRENGTHS and HOW SUPPLIED/STORAGE AND HANDLING.
- To update the PATIENT COUNSELING section with pregnancy exposure registry information and to delete general information about HIV-1 infection not specific to Epivir use.
- To update the PATIENT INFORMATION based upon the Agency's current standards.

APPROVAL & LABELING

We have completed our review of these supplemental applications, as amended. They are approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling text for the package insert and text for the patient package insert, with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for these NDAs, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

You may request advisory comments on proposed introductory advertising and promotional labeling. The revisions in your promotional materials should include prominent disclosure of the important new safety information that appears in the revised package labeling. Within 7 days of receipt of this letter, submit your statement of intent to comply with 21 CFR 314.70(a)(4) to the address above, by fax to 301-847-8444, or electronically in eCTD format.
