Dear Dr. Wright:

Please refer to your Supplemental New Drug Application (sNDA) dated December 8, 2015, received December 8, 2015, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Pepcid Complete® (famotidine 10 mg, calcium carbonate 800 mg, magnesium hydroxide 165 mg) chewable tablet.

This supplemental new drug application proposes graphical revision to the principal display panel, the addition of the Poison Control Center telephone number to the Drug Facts labeling (DFL), and the addition of "modified starch" to the DFL's *inactive ingredients* section for *berry flavor* only.

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the agreed-upon labeling text.

DRUG REGISTRATION AND LISTING

All drug establishment registration and drug listing information is to be submitted to FDA electronically, via the FDA automated system for processing structured product labeling (SPL) files (eLIST). At the time that you submit your final printed labeling (FPL), the content of labeling (Drug Facts) should be submitted in SPL format as described at
