Dear Ms. Kyle:

Please refer to your Supplemental New Drug Applications (sNDAs) dated and received on April 22, 2015, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for TAMIFLU<sup>®</sup> (oseltamivir phosphate) 30, 45 and 75 mg capsules and TAMIFLU<sup>®</sup> (oseltamivir phosphate) oral solution, 6 mg/mL.

These Prior Approval supplemental new drug applications provide for updates to the Adverse Reactions section of TAMIFLU<sup>®</sup> labeling, converting the safety information from Adverse Events (AEs) to Adverse Drug Reactions (ADRs) and add the drugs rimantadine and amantadine to the list of drugs for which no drug interaction with oseltamivir has been reported. In addition and in consideration of the overall status and age of the label relative to time since initial approval, the TAMIFLU<sup>®</sup> Prescribing Information, Patient Instruction leaflet and Instructions for Use portions of the label have been updated to reflect best and current labeling practices.

### **APPROVAL & LABELING**

We have completed our review of these supplemental applications, as amended. They are approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert, text for the patient package insert and text for instructions of use) with the addition of any labeling changes

in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>

The SPL will be accessible via publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes, and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

You may request advisory comments on proposed introductory advertising and promotional labeling. To do so, submit the following, in triplicate, (1) a cover letter requesting advisory comments, (2) the proposed materials in draft or mock-up form with annotated references, and (3) the package insert(s) to:
