## SUPPLEMENT APPROVAL

Agouron Pharmaceuticals Inc., A Pfizer Company  
Attention: Nadia Kirzecky  
Director, Worldwide Safety & Regulatory Affairs  
235 East 42nd Street  
New York, NY 10017-5755

Dear Ms. Kirzecky:

Please refer to your Supplemental New Drug Applications (sNDAs) dated June 30, 2016, received June 30, 2016, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for VIRACEPT<sup>®</sup> (nelfinavir mesylate) oral powder, 50 mg/g (NDA 20778), VIRACEPT<sup>®</sup> (nelfinavir mesylate) tablets, 250 mg (NDA 20779), and VIRACEPT<sup>®</sup> (nelfinavir mesylate) tablets, 625 mg (NDA 21503).

We also refer to our letter dated June 3, 2016, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for the class of antiretrovirals and antiviral hepatitis C medications that are indicated to be administered with ritonavir or cobicistat, of which VIRACEPT<sup>®</sup> (nelfinavir mesylate) oral powder and tablets are members. This information pertains to the risk of significant adverse drug-drug interactions between the antipsychotic medication LATUDA<sup>®</sup> (lurasidone hydrochloride) and strong CYP3A4 inhibitors.

These supplemental new drug applications provide for revisions to the labeling for VIRACEPT<sup>®</sup> (nelfinavir mesylate) oral powder and tablets, consistent with our June 3, 2016 letter and agreed upon labeling revisions through electronic mail correspondence dated July 30, 2016.

### **APPROVAL & LABELING**

We have completed our review of these supplemental applications, as amended. They are approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

## **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>.

Content of labeling must be identical to the enclosed labeling (text for the package insert, text for the patient package insert), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
