Dear Dr. Martin:

Please refer to your Supplemental New Drug Application (sNDA) dated July 8, 2016, received submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for esomeprazole strontium delayed-release capsules, 24.65 mg and 49.3 mg.

We also refer to our letter dated June 15, 2016, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for the class of proton pump inhibitors (PPIs). This information pertains to the serious cutaneous and systemic lupus erythematosus events associated with the use of PPIs.

This supplemental new drug application provides for the Safety Labeling Changes required under Section 505(o)(4) of the FDCA, consistent with our June 15, 2016 letter. Additionally, there are other agreed upon labeling changes.

APPROVAL & LABELING

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.
