

NDA 019717/S-146

SUPPLEMENT APPROVAL

Eli Lilly and Company
Attention: Ingrid Hensley
Consultant – Global Regulatory Affairs- North America
Lilly Corporate Center
Drop Code 2543
Indianapolis, IN 46285

Dear Ms. Hensley:

Please refer to your Supplemental New Drug Application (sNDA) dated and received June 1, 2016, and your amendment, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Humulin 70/30 (70% human insulin isophane suspension/30% insulin human [rDNA origin] injection) 100 units/mL.

We also refer to our approval letter dated January 6, 2017, which contained the following error: Step 7 of the KwikPen Instructions for Use (IFU) did not contain the updated image with text.

This replacement approval letter incorporates the correction of the error. The effective approval date will remain January 6, 2017, the date of the original approval letter.

This Prior Approval supplemental new drug application proposes an update to the instructions for use (IFU).

APPROVAL & LABELING

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (package insert, patient package insert, instructions for use), with the addition of any labeling changes in pending “Changes Being

Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Callie Cappel-Lynch, Regulatory Project Manager, at (301) 796-8436.

Sincerely,
