Dear Mr. Mill:

Please refer to your Supplemental Biologics License Application (sBLA), dated and received February 28, 2017, and your amendments, submitted under section 351(a) of the Public Health Service Act for Tysabri (natalizumab).

This Prior Approval supplemental biologics application provides for the addition to Section 5.1 (Warnings and Precautions; Progressive Multifocal Leukoencephalopathy) of information about JC Virus (JCV) granule cell neuronopathy, a recommendation for consideration of more frequent MRI monitoring in certain patients, and information regarding anti-JCV antibody testing following use of intravenous immunoglobulin. This supplement also proposes the addition of information about acute retinal necrosis caused by herpes viruses to Section 5.3 (Warnings and Precautions; Herpes Infections), Section 17 (Patient Counseling Information), and the Medication Guide. The supplement also includes revisions to Section 13 (Nonclinical Toxicology) and provides for revised labeling to comply with the Pregnancy and Lactation Labeling Rule (PLLR).
