Dear Ms. Williams:

Please refer to your Supplemental Biologics License Application (sBLA), dated and received December 11, 2017, submitted under section 351(a) of the Public Health Service Act for Tanzeum (albiglutide) injection 30 mg, 50 mg.

This Prior Approval sBLA provides for proposed modifications to the approved Tanzeum risk evaluation and mitigation strategy (REMS). This supplement is in response to our December 1, 2017, REMS Modification Notification letter.

We have completed our review of this supplemental application. It is approved effective on the date of this letter.

**RISK EVALUATION AND MITIGATION STRATEGY (REMS) REQUIREMENTS**

The REMS for Tanzeum (albiglutide) was originally approved on April 15, 2014, and the most recent REMS modification was approved on July 27, 2015. The REMS consists of a communication plan and a timetable for submission of assessments of the REMS. In order to minimize burden on the healthcare delivery system of complying with the REMS, we determined that you were required to make the REMS modifications outlined in our REMS Modification Notification letter dated December 1, 2017.

**Communication Plan:** We have determined that the communication plan is no longer necessary as an element of the REMS to ensure the benefits of Tanzeum outweigh its risks because the communication plan has been completed and because the most recent assessment demonstrates that the communication plan has met its goals. No further assessments are necessary to assess the current communication plan.

Therefore, because the communication plan is no longer necessary to ensure the benefits of the drug outweigh the risks, a REMS is no longer required for Tanzeum.

**REPORTING REQUIREMENTS**

We remind you that you must comply with reporting requirements for an approved BLA (in 21 CFR 600.80 and in 21 CFR 600.81).

If you have any questions, call Marisa Petruccelli, Regulatory Project Manager, at (240) 402-6147.

Sincerely,
