Dear Ms. Burtness:

Please refer to your Supplemental New Drug Applications (sNDAs) dated December 19, 2016, received December 19, 2016, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for the following:

NDA 19949/S-064 Diflucan (fluconazole) Tablets
NDA 20090/S-046 Diflucan (fluconazole) Powder for Oral Suspension

These Prior Approval supplemental new drug applications provide for the following revisions to the package insert:

Most of the language in this subsection was retained in the **WARNINGS** section, **Potential for Fetal Harm** subsection. This change was also made in the **PRECAUTIONS** section, **Pregnancy, Teratogenic Effects** subsection.
- 2) Removal of pregnancy category from the **PRECAUTIONS** section, **Pregnancy, Teratogenic Effects** subsection, and addition of risk mitigation for treatment of serious fungal infections information.
- 3) Reordered language in the **PRECAUTIONS** section, **Pregnancy, Human Data** subsection.
- 4) Updated **PATIENT INFORMATION** with pregnancy information.
- 5) Minor editorial changes throughout the label.

APPROVAL & LABELING

We have completed our review of these supplemental applications, as amended. They are approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert, text for the patient package insert), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for these NDAs, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in these supplemental applications, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
