Attention: Ana Ma. Cibrián
Director, GRS Mature Products Virology
P.O. Box 4000, Mailstop B33-03
Princeton, NJ 08543-4000

Dear Ms. Cibrián:

Please refer to your Supplemental New Drug Application (sNDA) dated and received July 28, 2017, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Videx (didanosine) EC capsules, 125 mg, 200 mg, 250 mg, 400 mg.

We also refer to our approval letter dated January 25, 2018, which contained the following error:

- Dated and received date is noted incorrectly: June 19, 2017 instead of July 28, 2017.

This replacement approval letter incorporates the correction of the error. The effective approval date will remain January 25, 2018, the date of the original approval letter.

This Prior Approval supplemental new drug application provides for the following:

- The addition of the contraindication of VIDEX with stavudine to the BOXED WARNING and CONTRAINDICATIONS sections of the Prescribing Information. Further, updates to the WARNINGS and PRECAUTIONS as well as PATIENT COUNSELING INFORMATION sections were made.
- The removal of the fat redistribution subsection and the addition of lipoatrophy subsection in the WARNINGS and PRECAUTIONS section.
- The addition of stavudine to the “Do not take Videx if you” section of the Medication Guide, and formatting changes. Additional updates were made to be consistent with the Prescribing Information.
