

NDA 22064/S-036
NDA 22157/S-018

SUPPLEMENT APPROVAL

Sanofi-Aventis U.S. LLC
55 Corporate Drive
Bridgewater, NJ 08807

Attention: Doris Sincak, MS
Senior Manager

Dear Ms. Sincak:

Please refer to your Supplemental New Drug Applications (sNDAs), dated March 16, 2018, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for NDA 22064/Xyzal (levocetirizine dihydrochloride) Tablets, 5 mg and NDA 22157/Xyzal (levocetirizine dihydrochloride) Oral Solution, 2.5 mg/5 mL (0.5 mg/mL).

These "Changes Being Effected" supplemental new drug applications provide for the following language to be added to the Postmarketing Experience section of the package insert:

Rebound pruritus-pruritus within a few days after discontinuation of cetirizine, usually after long-term use (e.g., months to years) of cetirizine.

APPROVAL & LABELING

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling text for the package insert with the addition of any labeling changes in pending "Changes Being Effected" (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Carol F. Hill, Senior Regulatory Health Project Manager for Safety, at (301) 301-796-1226.

Sincerely,

{See appended electronic signature page}
