Attention: Mariana Tran, PhD, RAC
Associate Director, Global Regulatory Affairs
508 Carnegie Center Drive
Princeton, New Jersey 08540

Dear Dr. Tran:

Please refer to your Supplemental New Drug Application (sNDA) dated and received March 13, 2018, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Samsca (tolvaptan) 15 mg and 30 mg Tablets.

We also refer to our Approval letter issued April 23, 2018. The April 23, 2018 Approval letter contained a formatting error in the Boxed Warning and missing content in the Table of Contents in the appended label. This letter supersedes the April 23, 2018 Approval letter and corrects the errors in the label. The date of approval remains April 23, 2018.

This Prior Approval supplemental new drug application provides for revisions to the following sections of the approved label: **BOXED WARNING, HIGHLIGHTS, CONTRAINDICATIONS, WARNINGS AND PRECAUTIONS**, and the Medication Guide to update language about hepatotoxicity and to advise against the use of tolvaptan outside of the FDA-approved Risk Evaluation and Mitigation Strategy for Jynarque® (tolvaptan).

APPROVAL & LABELING

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the package insert, Medication

Guide), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
