Gilead Sciences, Inc.  
Attention: April Raj, MS

Foster City, CA 94404

Dear Ms. Raj:

Please refer to your Supplemental New Drug Application (sNDA) dated and received March 9, 2018, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for ODEFSEY<sup>®</sup> (emtricitabine, rilpivirine, and tenofovir alafenamide) tablets.

This Prior Approval supplemental new drug application provides for the following revisions to the ODEFSEY US Prescribing Information (USPI):

- Addition of safety and pharmacokinetic data from the rilpivirine (RPV) arm of Janssen Scientific Affairs, LLC (Janssen) clinical study TMC114HIV3015 in HIV-1 infected pregnant women, to align with the recently approved EDURANT<sup>®</sup> (rilpivirine) USPI
- Addition of drug-drug interaction data from Study GS-US-367-1657 to align with the VOSEVI<sup>®</sup> (sofosbuvir, velpatasvir, and voxilaprevir) USPI
- Revisions to HIV/HBV co-infection and renal impairment/testing language to align with the BIKTARVY<sup>®</sup> (bictegravir, emtricitabine, and tenofovir alafenamide) USPI
- Additional editorial and format revisions for consistency with other approved HIV labels and to conform to best labeling practices.

**APPROVAL & LABELING**

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed, agreed-upon labeling text.

**WAIVER OF ½ PAGE LENGTH REQUIREMENT FOR HIGHLIGHTS**

Please note that we have previously granted a waiver of the requirements of 21 CFR 201.57(d)(8) regarding the length of Highlights of prescribing information.

## **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>.

Content of labeling must be identical to the enclosed labeling (text for the prescribing information and text for the patient package insert), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry titled “SPL Standard for Content of Labeling Technical Qs and As” at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

## **REQUIRED PEDIATRIC ASSESSMENTS**

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.
