

NDA 020178/S-023

## **SUPPLEMENT APPROVAL**

Baxter Healthcare Corporation  
Attention: Melissa I. Klesch  
Senior Manager, Regulatory Affairs  
32650 N. Wilson Road, Mail Stop WG1-3  
Round Lake, IL 60073

Dear Ms. Klesch:

Please refer to your Supplemental New Drug Application (sNDA) dated and received August 5, 2019, and your amendment, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for 0.9% Sodium Chloride Injection, USP in MINI-BAG Plus.

This “Changes Being Effected” supplemental new drug application provides update to the product prescribing information (PI) concerning the use of the MIN-BAG plus vial with adaptor during reconstitution operations. The labeling changes were supported by the provision of relevant studies to demonstrate that when a 20 mm vial is docked on to the MINI-BAG plus container, container closure integrity is maintained, and the reconstitution operation does not cause vapor and particulate ingress.

### **APPROVAL & LABELING**

We have completed our review of this supplemental application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling text.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at <http://www.fda.gov/ForIndustry/DataStandards/StructuredProductLabeling/default.htm>. Content of labeling must be identical to the enclosed labeling (text for the prescribing information) with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eLIST may be found in the guidance for industry titled *SPL Standard for Content of Labeling Technical Qs and As* at <http://www.fda.gov/downloads/DrugsGuidanceComplianceRegulatoryInformation/Guidances/UCM072392.pdf>.

The SPL will be accessible via publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in MS Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes, and annotate each change. To facilitate review of your submission, provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

## **REPORTING REQUIREMENTS**

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Grecia C. Edwards, Regulatory Business Process Manager, at (240) 402 - 1773.

Sincerely,
