Genzyme Corporation
Attention: Marissa M. Fletcher, PhD
Director, Global Regulatory Affairs
50 Binney Street
Cambridge, MA 02142

Dear Dr. Fletcher:

Please refer to your supplemental biologics license application (sBLA), dated and received July 12, 2019, and your amendments, submitted under section 351 of the Public Health Service Act for Lemtrada (alemtuzumab) injection.

We also refer to our letter dated April 30, 2019, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we believe should be included in the labeling for Lemtrada. This information pertains to the risk of progressive multifocal leukoencephalopathy.

This supplemental biologics license application provides for revisions to the labeling for Lemtrada, consistent with our April 30, 2019, Safety Labeling Change Notification letter.

APPROVAL & LABELING

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at FDA.gov,¹ that is identical to the enclosed labeling (text for the Prescribing Information and Medication Guide) and include the labeling changes proposed in any pending "Changes Being Effected" (CBE) supplements.

Information on submitting SPL files using eLIST may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.²

The SPL will be accessible via publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this BLA, including pending “Changes Being Effectuated” (CBE) supplements, for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 601.12(f)] in Microsoft Word format that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
