

NDA 202806/S-013

## SUPPLEMENT APPROVAL

Novartis Pharmaceuticals, Corporation  
Attention: Omer Munir, R.Ph.  
Director, Regulatory Affairs, Oncology  
One Health Plaza  
East Hanover, NJ 07936-1080

Dear Mr. Munir:

Please refer to your supplemental new drug application (sNDA) dated and received January 16, 2019, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for TAFINLAR (dabrafenib) capsules, 50 mg and 75 mg.

This Prior Approval supplemental new drug application provides for revisions to the Prescribing Information (PI) and Medication Guide including the addition of colitis and gastrointestinal perforation in Section 6.1 (Clinical Trials Experience); revisions and clarifications in Sections 8.5 (Geriatric Use), 8.6 (Renal Impairment) and 8.7 (Hepatic Impairment); and the Addition of male contraception language in Section 8.3 (Females and Males of Reproductive Potential), Section 17 (Patient Counseling Information), and the Medication Guide.

In addition, formatting was updated and edits applied in the Full Prescribing Information to better align with the current FDA labeling guidances, policies, and practices.

### **APPROVAL & LABELING**

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

### **WAIVER OF ½ PAGE LENGTH REQUIREMENT FOR HIGHLIGHTS**

Please note that we have previously granted a waiver of the requirements of 21 CFR 201.57(d)(8) regarding the length of Highlights of Prescribing Information.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at

FDA.gov.<sup>1</sup> Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information and Medication Guide), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(I)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

## **REQUIRED PEDIATRIC ASSESSMENTS**

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication in pediatric patients unless this requirement is waived, deferred, or inapplicable.

Because none of these criteria apply to your application, you are exempt from this requirement.

## **REPORTING REQUIREMENTS**

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).
