Dear Mr. White:

Please refer to your supplemental new drug application (sNDA) dated September 16, 2020, received September 16, 2020, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Tindamax (tinidazole tablets), 500 mg.

This “Changes Being Effected” supplemental new drug application provides for the addition of **Usage (1.5)** heading in the **INDICATIONS AND USAGE (1)**, under **FULL PRESCRIBING INFORMATION: CONTENTS**.

### **APPROVAL & LABELING**

We have completed our review of this application. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at [FDA.gov](http://www.fda.gov).<sup>1</sup> Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information), with the addition of any labeling changes in pending “Changes Being Effected” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling. If the content of labeling in SPL format initially submitted with this CBE-0 labeling supplement is identical to the attached approved labeling, an additional submission of content of labeling in SPL format is not required. Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup> The SPL will be accessible from publicly available labeling repositories.
