SUPPLEMENT APPROVAL

Allergan Sales, LLC
Attention: Sandra P. Silva, M.S., M.B.A.
Director of Global Regulatory Strategy
5 Giralda Farms Madison, NJ 07940

Dear Ms. Silva:

Please refer to your supplemental new drug applications (sNDAs) dated and received August 27, 2021, and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Celexa (citalopram) tablets; Lexapro (escitalopram) tablets; Lexapro (escitalopram) oral solution; Viibryd (vilazodone hydrochloride) tablets; Fetzima (levomilnacipran) extended-release capsules.

We also refer to our letter dated June 7, 2021, notifying you, under Section 505(o)(4) of the FDCA, of new safety information pertaining to the association between the use of selective serotonin reuptake inhibitors (SSRI)/serotonin and norepinephrine reuptake inhibitors (SNRI) and the occurrence of sexual dysfunction that we believe should be included in the labeling for all SSRIs and SNRIs.

Our June 7, 2021, correspondence also requested revisions, unrelated to the new safety information, to update the Overdosage section of the Prescribing Information for Lexapro.

This supplemental new drug application provides for revisions to the labeling for the aforementioned products consistent with our June 7, 2021, safety labeling change notification letter.

APPROVAL & LABELING

We have completed our review of these applications, as amended. They are approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

WAIVER OF ½ PAGE LENGTH REQUIREMENT FOR HIGHLIGHTS

Please note that we have previously granted a waiver of the requirements of 21 CFR 201.57(d)(8) regarding the length of Highlights of Prescribing Information.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.¹ Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information and Medication Guide), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.²

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients (which includes new salts and new fixed combinations), new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication in pediatric patients unless this requirement is waived, deferred, or inapplicable.
