Dear Dr. Singhal:

Please refer to your supplemental new drug application (sNDA) dated and received April 18, 2022, submitted under section 505(b)(2) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Vumerity (diroximel fumarate) delayed-release capsules.

This Prior Approval sNDA provides for an update to the exposure information in Section 6.1 (Adverse Reactions; Clinical Trials Experience) of the Prescribing Information. This sNDA also provides for the addition of acute pancreatitis to Subsection 6.2 (Adverse Reactions; Postmarketing Experience), in order to align with the Prescribing Information of the referenced drug.

Additionally, we request that pancreatitis be added as an Adverse Event of Special Interest for any future studies involving Vumerity.

APPROVAL & LABELING

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

CONTENT OF LABELING

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.¹ Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information and Patient Information), with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.²

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
