## **SUPPLEMENT APPROVAL**

Hospira, Inc.  
Attention: Maria Hinklin  
Director, Global Regulatory Affairs  
275 North Field Drive, Bldg. H1-3S  
Lake Forest, IL 60045

Dear Maria Hinklin,

Please refer to your supplemental new drug application (sNDA) dated and received on April 5, 2024, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Zinc Chloride Injection.

We also refer to our letter dated March 8, 2024, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we have determined should be included in the labeling for Zinc Chloride Injection. This information pertains to the risk of zinc-induced hypocupremia leading to cytopenias and myeloneuropathy reported to the FDA Adverse Event Reporting System (FAERS) and published in the medical literature.

This supplemental new drug application provides for revisions to the labeling for Zinc Chloride Injection, consistent with our March 8, 2024, letter.

### **APPROVAL & LABELING**

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling with minor editorial revisions listed below and reflected in the enclosed labeling.

- In the WARNINGS for Copper Deficiency, replaced “and” with “and/or” for the statement regarding “if a patient develops signs ~~and~~ and/or symptoms of copper deficiency...”

## **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit the content of labeling [21 CFR 314.50(l)] in structured product labeling (SPL) format using the FDA automated drug registration and listing system (eLIST), as described at FDA.gov.<sup>1</sup> Content of labeling must be identical to the enclosed labeling (text for the Prescribing Information) with the addition of any labeling changes in pending “Changes Being Effectuated” (CBE) supplements, as well as annual reportable changes not included in the enclosed labeling.

Information on submitting SPL files using eList may be found in the guidance for industry *SPL Standard for Content of Labeling Technical Qs and As*.<sup>2</sup>

The SPL will be accessible from publicly available labeling repositories.

Also within 14 days, amend all pending supplemental applications that include labeling changes for this NDA, including CBE supplements for which FDA has not yet issued an action letter, with the content of labeling [21 CFR 314.50(l)(1)(i)] in Microsoft Word format, that includes the changes approved in this supplemental application, as well as annual reportable changes. To facilitate review of your submission(s), provide a highlighted or marked-up copy that shows all changes, as well as a clean Microsoft Word version. The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).

## **PROMOTIONAL MATERIALS**

You may request advisory comments on proposed introductory advertising and promotional labeling.
