We also refer to our Prior Approval Supplement Request letter dated October 31, 2023, informing you that the Prescribing Information (PI) and Medication guide for your product need updating to include information about drug abuse and dependence.

This Prior Approval supplemental biologics application provides for the following changes:

- A Drug Abuse and Dependence Section was added to the PI, and the Medication Guide was updated accordingly.
- Minor editorial revisions were made in some sections of the labeling.

### **APPROVAL & LABELING**

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling.

### **CONTENT OF LABELING**

As soon as possible, but no later than 14 days from the date of this letter, submit, via the FDA automated drug registration and listing system (eLIST), the content of labeling [21 CFR 601.14(b)] in structured product labeling (SPL) format, as described at

FDA.gov,<sup>1</sup> that is identical to the enclosed labeling (text for the Prescribing Information and Medication Guide) and include the labeling changes proposed in any pending “Changes Being Effected” (CBE) supplements.
