Dear Isa Samuels:

Please refer to your supplemental biologics license application (sBLA), dated and received November 22, 2023, and your amendments, submitted under section 351(a) of the Public Health Service Act for Ocrevus (ocrelizumab) injection.

We also refer to our letter dated October 27, 2023, notifying you, under Section 505(o)(4) of the Federal Food, Drug, and Cosmetic Act (FDCA), of new safety information that we have determined should be included in the labeling for Ocrevus. This information pertains to the risk of serious, including life-threatening or fatal, infections associated with anti-CD20 monoclonal antibody use in patients treated for multiple sclerosis.

This sBLA provides for revisions to the labeling for Ocrevus, consistent with our October 27, 2023, Safety Labeling Change Notification letter.
